

APOLOGETICS

IN ONE LESSON

↑
almost

1

Adopt the other person's view

2

Follow the view to its logical (but **absurd**) conclusion

3

Ask a question that illustrates the absurdity of the view

Father: why did you start smoking?

Child: because all my friends are doing it

Father: would you jump off a cliff if your friends did?

1

“You cannot believe a book written by people”

2

All books were written by people; no books can be believed

3

“Do you believe in *any* books?”

1

“What is right and wrong is up to each person”

2

I can punch you in the face, that’s right for me

3

“If I think punching you is right, how can you tell me that this is wrong?”
